Summary

The Connect-2-Everything landing page by Refined Data allows Adobe Connect account holders to present a registration form for access to meeting rooms as a landing page. The user fills in the form on the landing page and selects **enter meeting**. The system will check to see if the user exists, and if not, create an account. If the user does exist, their account is updated (if required by the client). The user is added to the permissions of the meeting room and can enter the meeting.

The system also checks the meeting time. If the meeting start time is within 15 minutes of the user's request to enter the meeting room, the user is launched directly into the meeting room. If the meeting time is not scheduled to start within 15 minutes of the user's request to enter, the user is directed to the Adobe Connect waiting room page.

Custom landing page URL

The custom landing page URL is structured as

<http://CLIENT.connect2everything.refineddata.com/lp/InsertCustomURLfromAdobeHere>

Users directed to this link will access the custom landing page presenting the meeting room title and description (from Adobe Connect), and the form fields required to enter the meeting.

Refined Data Training & Learning Adobe Connect & Custom Pods

Introducing Vantage Point for Adobe Connect

Please join Terry Shane for a demonstration of Vantage Point for Adobe Connect - the revolutionary new extension that lets you train and teach from a whole new perspective. For the best experience, please ensure you have a webcam connected to your computer **before** entering the meeting room. We look forward to "seeing" you.

COMPLETE THIS FORM TO JOIN THIS EVENT

First Name	<input type="text"/>
Last Name	<input type="text"/>
Email Address	<input type="text"/>
Company	<input type="text"/>
Job Title	<input type="text" value="Optional"/>
Phone	<input type="text" value="Optional"/>

Custom Landing Pages

We can provide fully branded registration portal pages like this for any existing Adobe Connect site (Hosted or Licensed) so your users never see the Adobe Login Screen again!

Benefits

Use your own corporate domain name and protect your brand identity in all your meeting links - why advertise Adobe?

Collect more information on users entering your meetings than simply a name like "joe"

Optionally limit access by applying rules or requiring a passcode for entry

Unlimited customization available to meet your specific needs.

[Request a Demo](#)

The end user will need to fill in the form, click **enter meeting**, and will have access to the meeting room. If the requested meeting room is not open, the user will be presented with the Adobe Connect waiting room screen.

Email validation for the form can be enabled per client and by default is enabled.

For administrative accounts on Adobe Connect, please notify Refined Data of the username to prevent overriding the administrative account password.

iCal

The landing page URL can also connect to the iCalendar feature and display a message within iCalendar to create a notification. This is done by adding "ical" to the URL.

URL: <http://CLIENT.connect2everything.refineddata.com/ical/ROOM>

Set up guide

The set up guide is a complete listing of steps to use the Refined Data landing page.

1. Create meeting in Adobe Connect
2. Add the custom URL to the event URL assigned by RDS
<http://companyname.connect2everything.refineddata.com/lp/customURLfromAdobe>
3. Use this link in your event marketing campaigns to direct people to the custom landing page
4. When users land on this page they are presented with the form fields
5. Users fill in the form and are logged in to the meeting room or directed to a waiting room page, depending on the variable set by the client as to when to open the meeting room to attendees.

Attendance report

To generate an attendance report for the event, access the URL:

<http://CLIENT.connect2everything.refineddata.com/lp/InsertCustomURLfromAdobe/report>

To create a JSON formatted report, add **/json** to the end of the URL:

<http://CLIENT.connect2everything.refineddata.com/lp/InsertCustomURLfromAdobe/report/json>

Administrator reports

The administrator reports are accessed via an URL,

<http://CLIENT.connect2everything.refineddata.com/admin>, and provides an attendance report from Adobe Connect.

Additional information can be viewed here under **reports**:
